

ANA is a band from Bad Bentheim. The name originated in 2015 on a trip to Amsterdam. The idea behind it was to unite the lifestyle of music and music business and with this attitude an independent yet relaxed and forward-looking band. Each member understands the meaning of "band" is not only making music, but more importantly: "fellowship, friendship and to exchange common interests." This always strengthens their motivation to pursue their goals.

In the beginning they had setbacks but, "where there's a will, there's a way"! In a short time, some good friends became a promising team who already accomplished recording demo CDs, collected lots of experience in organising, managing, gigs and proper feedback. ANA wants to bring the 'Grunge' back, live it together and become a big thing in live music!
